pdctools Documentation

Release 0.0

2011, pdctools devs

December 09, 2011

CONTENTS

Contents:

Ok, first of all we need to check out what is already available out there:

- smbldap-tools (I think these are the perl scripts Emiliano was talking about...)

- Apache directory

- FreeIPA (I have no clue about the features in these projects... I just searched around for active directory alternatives and such)

- OpenDJ

then, we may find this useful

if you want to add documentation, this is the guide

for example, this is a link to a file containing the author names:

```
people
```

INDICES AND TABLES

- *genindex*
- *modindex*
- *search*
